OBJECTIVE

To secure a role as a Quality Assurance Tester utilizing my 2 years of experience in manual and automated testing, QA methodologies, and bug tracking tools to deliver high-quality software products.

Or

To obtain a Front-End Developer position, leveraging my expertise in HTML, CSS, JavaScript, and web design to create user-friendly and visually appealing websites.

PROFILE

I have a keen eye for detail, which I perfected during my time as a QA, and I always make sure to thoroughly test software systems. I'm not afraid to get into the nitty-gritty and fix any bugs that I come across. My extensive test strategies, combined with my ability to collaborate effectively with cross-functional teams, has allowed me to deliver high-quality software products.

I'm a self-taught Front-End Developer who has gained experience in the IT industry through my own education and practice. I've taught myself HTML, CSS, JavaScript, and jQuery and have a solid understanding of software development methodologies, programming languages, and testing tools. With 2 years of experience in Quality Assurance, I've tested web and mobile applications to ensure they meet the highest standards of quality.

I'm a self-starter who is always eager for a challenge. I work well under pressure and I believe that clear and effective communication is key to a successful project. I always strive to improve collaboration and information-sharing within my team.

Overall, my passion for Front-End Development and my experience in the IT industry has given me a well-rounded set of skills that I bring to every project. I'm always looking to learn and grow, and I'm excited to take on new projects that push the limits of what's possible.

Work & Related Experience

- ❖ **Quality Assurance, Lunch Actually** (Jan, 2021 - Oct 2022)
Experienced Quality Assurance with 2 years in testing of web-based applications and mobile applications. Skilled in manual and automated testing, with a strong understanding of software development methodologies and best practices. Proven ability to develop and execute comprehensive test plans, identify and rectify bugs, and ensure the overall quality and functionality of web-based applications. Strong knowledge of web technologies, including HTML, CSS, JavaScript, Python and Linux . Experience with test management tools and bug tracking software such as JIRA.
- ❖ **Freelance** (Nov 2022 - Jan 2023)
As a freelancer, I've been proactive in seeking out opportunities that can deepen my understanding of the industry and broaden my skills. The freedom that comes with freelancing has given me the ability to effectively prioritize my workload and manage my time, ensuring that I am always able to tackle the most pressing tasks and deliver top-notch results within tight deadlines. With my focused approach and commitment to delivering high-quality work, I've established a strong reputation as a reliable and talented professional in the industry.
- ❖ **FUSE Tech Solution** (Jan 2023- Current {Probation})

EDUCATION

- ❖ **St John Mary International School** (May 2017 - Aug 2019)
Diploma
I am a recent high school graduate with a strong academic record and a passion for extracurricular activities. My GPA was 3.2, and I have consistently demonstrated a high level of motivation and dedication to my studies. I was an active member of the school community, participating in a wide variety of clubs and organizations, and consistently earning top honors in various competitions. I am a hardworking and focused individual with a strong desire to succeed and a proven track record of achieving success in both academic and extracurricular endeavors.
- ❖ **Self-Taught** (Since 2019)
Courses
After completing high school, I took the initiative to acquire the necessary skills to enter the IT industry through self-education. I utilized various resources such as paid courses, documentation, YouTube tutorials, and online research to acquire knowledge and skills. My experience as a self-taught individual has demonstrated to me that dedication and determination can lead to achieving one's goals

LANGUAGE

English *Native Speaker* Thai *Communicative*

ACTIVITIES/HOBBIES

- ❖ *Programming and coding in a variety of languages and technologies, including open-source and personal projects.*
- ❖ *Continuously learning and experimenting with new technologies to stay current in the industry.*
- ❖ *Participating in hackathons or online coding courses to extend one's knowledge and skills.*
- ❖ *Playing games and solving puzzles to optimize critical thinking and problem-solving abilities.*
- ❖ *To keep informed and proactive in professional development, I research new technologies and trends in the software industry.*
- ❖ *Participating in bug bounty programs or security testing events*

SKILLS

Soft Skills

- Attention to detail
 - Critical thinking
 - Customer-focused mindset
 - Continuous learning and development
- Adaptability
 - Initiative
 - Proactive
 - Decision making skills

Hard skills

- Experience with test automation tools (ex Selenium)
 - Familiarity with programming languages (ex Java, Python,)
 - Strong Knowledge of exploratory testing
 - Understanding of databases and SQL
 - Familiarity with performance testing tools (ex Apache JMeter)
- Familiarity with mobile testing and app development for iOS and Android.
 - Knowledge of security testing and security standards (ex OWASP)
 - Familiarity with security testing tools (ex OWASP ZAP, Nessus, etc.)
 - Knowledge of continuous integration and continuous delivery (CI/CD) processes
 - Familiarity with cloud computing platforms (ex Amazon Web Services, Google Cloud Platform, etc.)
- Knowledge of test environment setup and maintenance.
 - Knowledge of mobile device and mobile emulator testing
- Knowledge of test case management and test documentation
 - Familiarity with virtualization technologies (ex VirtualBox, VMware, etc.)

Penetration Testing Tool Skills (Rating Score 1-5)

- Linux..... 3
 - Nessus..... 3
 - Metasploit..... 3
 - Burp suite..... 4
 - Aircrack-ng..... 2
 - THC Hydra..... 4
 - LOIC & HOIC..... 2
- SQLMap..... 3
 - John the Ripper..... 4
 - Wireshark..... 2
 - Nmap..... 5
 - OWASP ZAP..... 3
 - OpenSSL..... 2
 - Maltego..... 3
